

**USD 422 KIOWA COUNTY SCHOOLS  
K-12 SCHOOL, REGISTERED LEED PLATINUM**

---

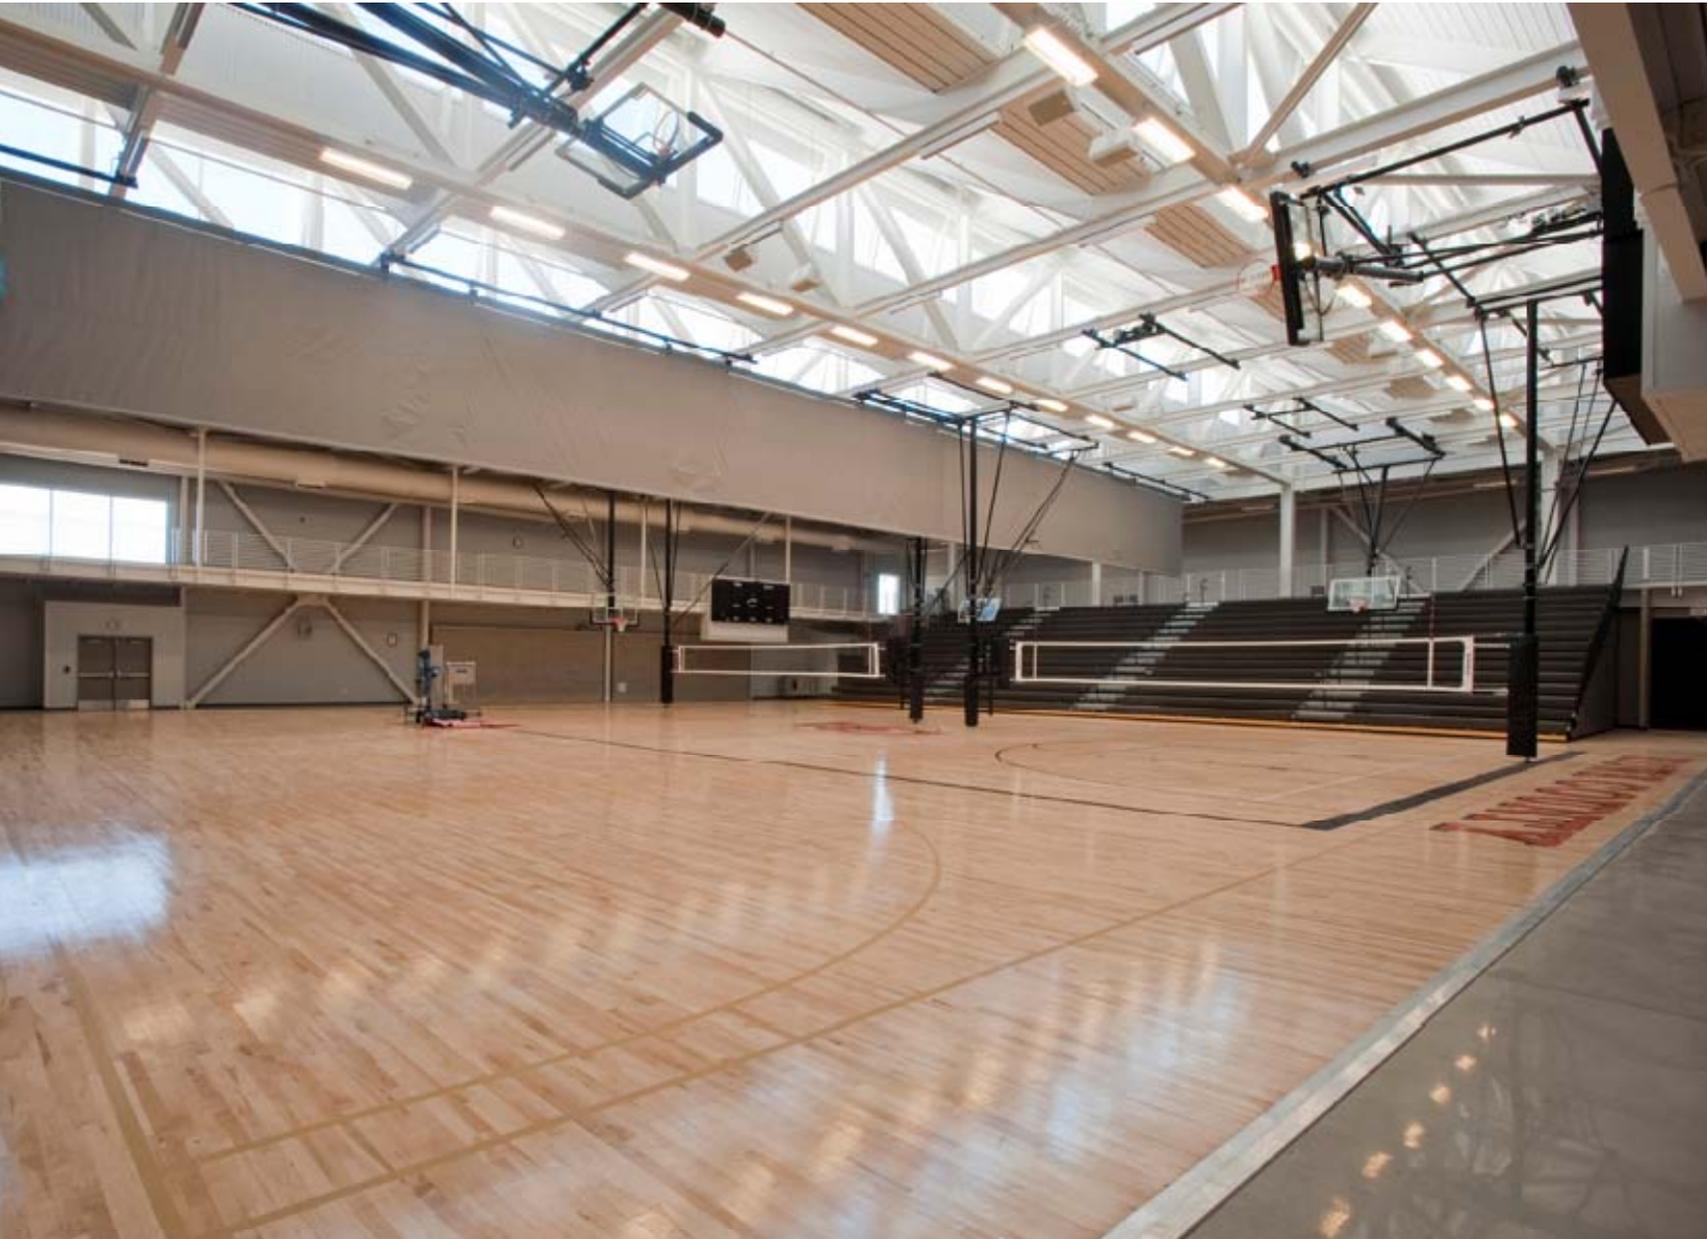

The new K-12 school is an educational facility, providing a place for students, adults, community members and visitors to learn about sustainable design and construction and everyday green practices.

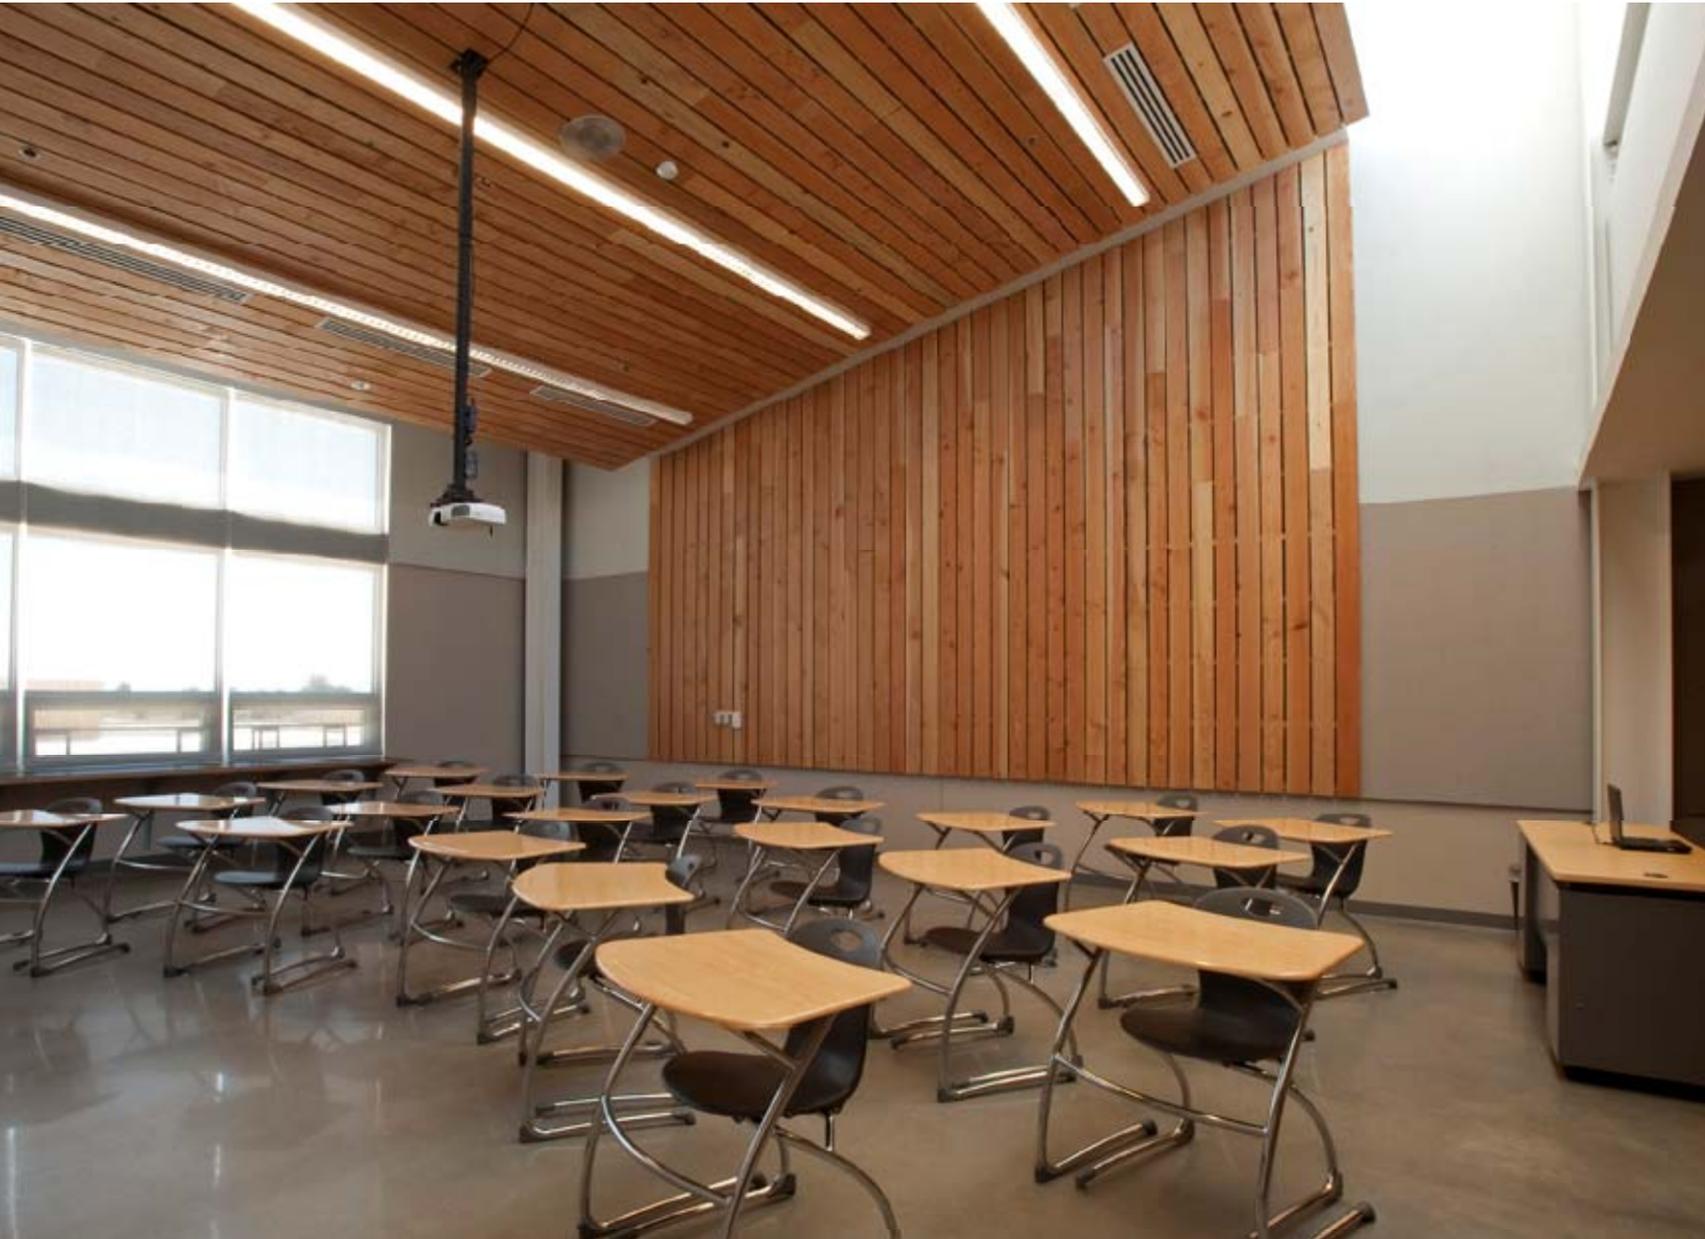

is captured and stored on site for irrigation. Waterless urinals and low- or no-flow fixtures in

g materials were chosen with sustainability and reclamation in mind. The cost-effective and easy-to-maintain concrete flooring is manufactured with low volatile organic compounds (VOCs). Some interior walls are constructed of concrete masonry unit burnished block that requires no painting, further reducing VOCs. Ceilings are made of

occupied spaces such as classrooms and corridors, along with the gym, are

Windows in all classrooms, most offices, and other rooms allow for natural ventilation.

ct team ensured the stadium and athletic fields were completed first, a year
